Message from the President

Shigeru Fuchioka
President & CEO

In 1918, Fuchioka started to operate as a merchant in the city of Kashiwagaki where the founder of our company, Kametaro Fuchioka was born. At first, in the City of Sanjo and Tsubame, we provided natural whetstones to our customers. Since then, we have been supporting craftsmen and manufacturers to produce knives tools, and European kitchen tools and have been committed to the local community.

After that, we opened up subsidiaries in Akita and Sapporo, and became recognized as a manufacturer of automotive and other parts. Much has changed in the sector since the humble beginning of our business - manufacturing process have become as elaborate and specialized as the high-quality products produced by Japanese manufacturers. We have evolved to be a leader in this competitive and dynamic business. Our aim is to continue to improve on our high-quality products and services, to be part of a strong Japanese economy, and to be recognized globally as a leading manufacturer.
